

Honorable Mention

Fall Out Boy

I served out my detention
And in the end I got an honorable mention
In the movie of my life, starring you instead of me
When the moonlight hits your bright eyes, I go blind
Maybe, next time I'll remember not to tell you
Something stupid like I'll never leave your side
Like the oldest movie I ever saw
Was the one we wrote together
I said I hate you but I'd never change a thing
I can be your John Cusack
I burnt out my defensive
Now everything I say is taken as offensive
In the movie of my life, starring you instead of me

When the moonlight hits your bright eyes, I go blind
Maybe, next time I'll remember not to tell you
Something stupid like I'll never leave your side
Like the oldest movie I ever saw
Was the one we wrote together
I said I hate you but I'd never change a thing
I can be your John Cusack
The oldest movie I ever saw
Was the one we wrote together
I said I hate you but I'd never change a thing
I can be your John Cusack
Be your John Cusack
I can be your John Cusack
