Since When

54-40

I am falling and falling and falling away
From what was you
For only thing I said I'd never doI knew something was wrong
When you got all caught up
And what was going on and not going in
Since when did it matter if the outside world fit inMake it believable
Love can be beautiful
Make it believableLay that old burden down
You got to turn around
And be a believerI am leaving and leaving and leaving today
On a loves' lost train
Never thought that I'd be riding on the rails this wayYou know as well as I do
That the question's nothing to do
With the money, honey and all damn things
Since when did it matter what the outside world would bringMake it believable
Love can be beautiful
Make it believableLay that old burden down
You got to turn aroundWe had a fever so right
And the dream was definitely real
And as the fever broke so did the dream
Since when did it matter what the outside world would bringMake it believable
Love can be beautiful
Make it believableLay that old burden down
You got to turn around
Be a believerMake it believable
Love can be beautiful
Make it believableLay that old burden down
You got to turn around
Be a believer
