

I Am Always Going to Love You

[Jon McLaughlin](#)

Well I felt it from the moment
that you stepped into the light
there was absolutely nothing I could do
I'd be blessed or I'd be cursed
for the rest of my life
'cause I knew that I was always going to love you I'm going to love you til my dying day
I'll be beside you when you're old and grey
just like the feelings that I feel right now
I'm never going to go away
If you ever hit your head and
you lost your memory
so that every morning started life anew
well with every passing day
I'd invent another way to show that
I am always going to love you I'm going to love you til my dying day
I'll be beside you when you're old and grey
just like the feelings that I feel right now
I'm never going to go away
From the picture perfect moments
that I never want to end
to the couch and TV kind of afternoons
You're a light that's always shining
and there's a million reasons why
I know that I am always going to love you
