Wake Up

Avant

Wake up
Wake up
Wake up
Wake up
Woke up in the middle of the night
With my girl beside me doin' naughty
Just watchin' her lay there
Such a sexual atmosphere
She starts movin' her hands on the pillow
(On the pillow)
Got me thinkin' to myself, here we go
I know I should go back to sleep but
(I can't help it, you're half naked, girl)
I'm not a thief in the night
But I can be if you let me
(Touch you, love you undercover, girl)
So many things that I wanna do
That involves you but first I need you to
(Wake up)
I know that you feel that
(Wake up)
I can tell by the way that you're archin' your back
You like it like that
(Just comin' with you)
(Wake up)
It's early in the morning
(Wake up)
But that don't mean I don't wanna piece of you
(Wake up, wake up, girl)
Win a game with the fellas at twelve
Means all day got me tired as hell
But, but that don't matter
'Cause I wanna get at you
A man never hugs you, thinkin' 'bout spoonin'
(Can you feel this?)
So I'mma take this to another level
I know you're gonna get up in a minute but
(I can't help it, you're half naked, girl)
I can't, whoa, I, I'm not a thief in the night

But I can be if you let me, girl
(Touch you, love you undercover, girl)
So many things that I wanna do
That involves you but first I need you to
(Wake up)
Wake
(Wake up)
I can tell by the way that you're archin' your back

You like it like that
(I'm comin' with you)
(Wake up)
Early in the morning
(Wake up)
Don't mean I don't wanna piece of you
(Wake up, wake up, girl)
Just wake up, girl
(Wake up)
I'm gonna be over you
(Wake up)
I mean really, really over you
My baby, touch me, I'm crazy 'bout you
(I'm comin' with you)
(Wake up)
Ooh, yeah
(Wake up)
Yeah, yeah
Wake up, baby
You don't have to move, girl
And if you wanna get into it
Once I do it
You'll be wide awake
(I know you feel that)
Now it's time to
(Wake up)
I know that you feel that
(Wake up)
I can tell by the way that you're archin' your back
You like it like that
(Just comin' with you)
(Wake up)
It's early in the morning
(Wake up)
But that don't mean that I don't want you
(Wake up, wake up, girl)

(Wake up)
Please, for me
(Wake up)
I'm right here waitin' for you, baby
(Just comin' with you)
(Wake up)
Open your eyes
(Wake up)
Wake up, babe
Wake up, babe
It's morning
