# The Light Of Eternity

## Matthew West

Give me one million problems
And I promise I'll worry about them all
Give me twenty-four hours and I promise I'll fill them up
With all the things that are so small
But something tells me
You made me for
So much more
I'm holding all of my life up to the light
The light of eternity
And I know what I should let go, I see what matters most
In the light of eternity
And I want You to see me shine in the light of eternity
Begin, gonna hold it on up
But this is one of those moments
When I'm weighing all my days, up to right here and right now
Am I doing anything that will last?
And if I'm not then I just have to ask
Please show me how
'Cause I know
You've made me for
So much more
So I'm holding all of my life up to the light
The light of eternity
And I know what I should let go, I see what matters most
In the light of eternity
And I want You to see me shine in the light of eternity
A new illumination changes everything
Changes everything
And now my motivation is eternity with You
Give me twenty-four hours and I promise
I'm gonna give 'em
All back to You
I'm holding all of my life up to the light
The light of eternity
And I know what I should let go, I see what matters most
In the light of eternity
I want You to see me shine, shine
I want You to see me shine in the light of eternity
Gotta hold it on up, hold it on up

Hold it on up, up to the light
Gotta hold it on up, gotta hold it on up
Hold it on up, up to the light
Hold it on up, hold it on up
Hold it on up, up to the light
Hold it on up, gotta hold it on up
Hold it on up, up to the light
