

Eggs

David Shrigley

What shall we do with his brain?
You put it back, for it isn't the same
What shall we do with his brain?

Eggs

do you think so?

oh...

What did you do with his brain?

What did you do to his brain?

Well he used to not be farmer shoes clean

Oh....

do you think so?

oh....

oh no

oh no

hey what did you do to his brain

what should you do to his brain

oh once somebody tried to help me

but it turned out wrong and now

now it's gone to hell and down

now he's trying to look inside me

what should you do with his brain

what did you do to his brain

HAHAHAAHAAHHAAHAAHAAAHHAAHAAHAAHAAHAA
