

Talk Too Much

Andy Bull

Hey, you kids
Tell me how you feeling
Is it getting real yet?
Is this what you want?

Baby, tell me what it feels like
Is it getting real yet?
Tell me when you feel you belong
Oh, what did you think?

Baby, you talk too much
Guess Iâ€™m wrong
Or you think too much
Gets me down
Baby, you talk too much
Talk too much, I told you that
I heard you crying to yourself
I pretended I was asleep

Hey kid, tell me what you felt like
I turned the heat
I tell you I was walking asleep
I was walking in my sleep

Oh, what did you think?
What did you think?
What did you think?

Baby, you talk too much
Guess Iâ€™m wrong
Or you think too much
Gets me down
Baby, you talk too much
Talk too much, I told you that
I heard you crying to yourself
I pretended I was asleep

Say what you want
You all say what you want
You all say what you want

Why you all say what you want?

Baby, you talk too much
I told you that
I think that you think too much
I donâ€™t think about that

Baby, you talk too much
Talk too much, I told you that
I heard you crying to yourself
I pretended I was asleep

Baby, you talk too much
Talk too much, I told you that
I heard you crying to yourself
I pretended I was asleep
