

So, What Would I Do

Joe Bonamassa

Intro -----Verse:
Home for a day,
Six more nights, baby...
When i go on the road, Ya feel my presence...
been a shame babe...
All i need, Is a true, Inner faith...
that true love brings...Verse:
Bless your soul for loving me...
In my false, Including...
Oh i know, Your the rock...
That keeps me grounded...
I know it can't be, A long...winding road...You know i love you so...Verse:
All i have, Is you...all my mine..
Your all that's left for...me...in my life...
Cause' i wanna know...
You seep, And laugh with me...
Cause' i will survive...As long as time will wait...Chorus:
So what would i do...
Just sit and suffer baby...
So what would i do....
I could go on, Without you darling...Oh i don't know...Guitar Solo -----Verse:
I wanna know, You seep, and laugh with me...
I'll survive, As long as time will wait...Ending Chorus:
So what would i do...
Just sit and suffer babe...
So what would i do....
I could go on, Without you darling....
Oh i don't know..Ending -----
