

# Good Times

## S Club 7

You're working too hard  
too many hours on the job  
and you know it must get better than this  
you're killing yourself  
and missing your love  
it's been weeks since you've been out with your friends  
We all need a change once in a while  
the time to make a change is right now  
This is for the good times, good times  
this is to the good life  
This is for the good times, good times  
this is to the good life  
take it easy baby, here's to good times  
The pressures on  
boss is breathing down your neck  
but the only thing you see's that vacation pamphlet on your desk  
you fantasise  
the day you leave it all behind  
to spend the best days of your life in the sun  
We all need a change once in a while  
the time to make a change is right now  
This is for the good times, good times  
this is to the good life  
This is for the good times, good times  
this is to the good life  
take it easy baby, here's to good times  
It's for the good times baby  
We all need a change once in a while  
the time to make a change is right now  
This is for the good times, good times  
this is to the good life  
This is for the good times, good times  
this is to the good life  
take it easy baby, here's to good times
