Claustrophobia

Creeper Lagoon

Advisory - the following lyrics contain explicit language:

Stolen hearts and broken bones
Wind up your jealous friends
That dare to kiss you on the cheekAll fools share the same coats on rainy days
Pass with claustrophobia
Should I run away from you, claustrophobia?Autumn smoke and smell of orange
Call all those sickly sweet girls
From High School who knew your nameEvery strange face holds you in a plaster
Cast with claustrophobia
Should I run away from you, claustrophobia?Well, I'm so near, I can taste everything
And I'm sitting here, I'll run away from everything
