

Almost Gone

Walter Trout

Now I get the feelin' that somethin's goin' wrong
Can't help believin' I won't last too long
Won't last too long, too long
Hey, I can see the writing on the wall
Hey, I believe that I'm about to lose it all I look around, I look around and everything I see
Reminds me of the way, reminds me of the way I used to be
I, I tell myself that life ain't ever fair
I keep looking for the answer
I look inside but it ain't ever there And now I got regrets for the things I used to do so long ago
I wish I could go back and do it over knowing what I know
I can feel it, I can feel my body closin' down
Like a toy that has been broken, laying there in pieces on the ground
A good woman's love is the only thing that keeps me hangin' on But I can see it in her eyes, we both know that I
am almost gone
But I can see it in her eyes, we both know that I am almost gone.
