

Colony Collapse

Killing Joke

Rapid inhuman advance of nano-computer technologies

It's changing our emotional development for the lure of immortality

If a virus counts as life in a post-human dream

The future doesn't need us - beloved Mother intervene! Colony Collapse A rupture in the fabric of human history

Self-assembling nanobots and human fallibility

Misprogrammed to replicate us - a grey goo of nano sea

The future doesn't need us - beloved Mother intervene!

Colony Collapse
