Stumblin'

Crosswind

When the mornin comes around
On the lonely side of the street is where im going to find you
Cause you couldnt see it then
that i'll always be more than just a friend
I've been inside you
You dont know
You dont care
You dont know when somethings there
You dont see
You dont believe
Your stumblin
So i'll laugh and think about
how i drive way out of my way to pick you up and see you (yeah, yeah)
You can break my confidence
Though I think about you from,
Time to time i'll always know where to find you
You dont know
You dont care
You dont know when somethings there
You dont see
You dont believe
Your stumblin
Said, You dont know
You dont care
You dont know when somethings there
You dont see (dont see)
You dont believe
Your stumblin

You know that
Your better then
Girl, your better then that
Better then that
You know that
Your better then
Girl, your better then that
Better then that
You dont know
You dont care

You dont know when somethings there
You dont see
You dont believe
Your Stumblin
So, you dont know
you dont care
you dont know when somethings there
you dont see
you dont believe (dont see)
your stumblin (your stumblin)
So you dont know
you dont care
you dont know when somethings there
you dont see
you dont believe (dont see)
your stumblin (your stumblin)
i'll try to pick you up ill try to catch you
when you fall (x2)
