

Mean Machine (live)

Motörhead

Midnight runaway, know you're running scared
Bright lights, big city, nobody seems to care
Open your eyes who's there, who's there
Open your eyes, nightmare

Unclean, fever dream on the high side, in the mean machine
Black bomber in the night, can you handle the pain
Better call the FBI, better change your name
Open your eyes, oh no, oh no
Open your eyes, creepshow

Unclean, fever dream, on the wild side in the mean machine
Unclean, fever dream, take a ride mean machine
Wet dream, bad scene, we don't care where you been
On the screen, movie queen, things ain't always
What they seem. stay clean, crazy dream
Off the high side in the mean machine
