

# Better Than Aliens

## sElf

They married young, she became a widow  
And for all of her Bingo friends, ditto  
She succumbed to ordinary jive  
And was miserableTired of waiting for her ship and captain  
Too afraid that the prior would happen  
Fell in love with an ordinary guy  
Who was dressed in dragYour love's better than aliens, tonight  
Your love's better than aliens, tonight  
Your love's better than anything that I like a lotHow can you bury your head so deep in the bed?  
(And pillowcase)  
Girl, there's no oxygen  
Shortly after, the waves came crashing inShe moved on to find bigger fish to swim with  
In the lonely, lonely November night  
She was abducted on sight  
Based on her principlesYour love's better than aliens, tonight  
Your love's better than aliens, tonight  
Your love's better than everything that I like
