One Step at a Time

Failure Anthem

One step at a time, I never cared if I was wrong or right
Though I ripped you apart, one step at a timeI can tell you're sick of losing all ambition
But I couldn't change, so I hit them breaks
I wish I could take another chance, take another chance on me
I just want to let you see you, I give you anything
Take another chance, take another chance on me, on me[Chorus]
Will you let me change your mind (one step at a time, one step at a time)
Will you bring me back to life
Are you willing to try one step at a timeI don't know what to say
I'm like a dead man wasting away
When you're not by my side
So let me prove you wrong tonight
Take another chance, take another chance on me
I just want to let you see you, I'd give you anything
Take another chance, take another chance on me, on me[Chorus]
Are you willing to try, cause I'll try
Take another chance, take another chance on me
I can't wait
Take another chance, take another chance on meThey can say what they say, but i'm not that way
I did the crime, I did the time
They can crucify, they can crucify, me
One step at a time, I never care, who was wrong or right
I'm gonna build us up, one step at a time[Chorus]
Take another chance, take another chance on me
I can't wait
Take another chance, take another chance on me
Take another chance, take another chance
