Do You Care?

Face to Face

Do you want to make a difference?
Do you wonder what would happen if you don't?
Do you need just a little push?
Do you try to change?Do you think about the other guy?
Do you want just one good reason why you should?
Do you only think about yourself?
Do you want to be left alone?You're running out of time and I don't see a change in you
And I don't think you're gonna make it
You're running out of time and I don't see a change in you
And I don't think you're gonna make itDo you understand the way it works?
Do you want to take as much as you can get?
Do you need just a little push?
Do you try to change?You're running out of time and I don't see a change in you
And I don't think you're gonna make it
You're running out of time and I don't see a change in you
And I don't think you're gonna make itWe're running out of time and there aren't many changes made
And I don't think we're going to make it
We're running out of time and there aren't many changes made
And I don't think we're going to make itWell, what do you think?
Yeah, that's what I thought
