

# Needing a Night Like This

[Marie Osmond](#)

It sure is good  
To feel this again  
What an unexpected pleasure  
I can't believe we're holding hands  
And walkin' in the moonlight together I've been needing a night like this  
To wake up these feelings  
Of love that I missed  
I've been needing a night like this for so long  
I close my eyes  
And you're holdin' me  
And listening to the words that you're saying  
There's a change coming over me  
I can feel my loneliness fading I've been needing a night like this  
To wake up these feelings of love that I missed  
I've been needing a night like this for so long  
Until I looked into your eyes tonight  
I was so sure that love had passed me by  
And I can't remember when it felt so right  
And I don't see a heartache in sight I've been needing a night like this  
To wake up these feelings of love that I missed  
I've been needing a night like this for so long
