Fall Silent

Groove Armada

(feat. Nick Littlemore)
No chance for me to start again
Break my heart again
No more reason why I'm here
There's a flood in my room I'm distraught
There's extra news and that's for sure
Bring back my chance to survive
Fall of man are bullshit and lies
Hope shatters my whole damn life

Even though I'm not alone tonight (Tonight - Tonight - Tonight)
My saviour breaks through clouds drain down on you (I'm left? I'm left? I'm left?)
With you girl come on give in to what I've done (I'm left? I'm left? I'm left?)
Turn the lights out on my life
Can't you see I'm losing my mind?
You walk away again out of my sight
Cause I'll never have you as my wife
I just fall silent (I'm left? I'm left? I'm left?)
My saviour breaks through clouds drain down on you (I'm left? I'm left? I'm left?)
With you girl come on give in to what I've done (I'm left? I'm left? I'm left?)
