

Fall Silent

Groove Armada

(feat. Nick Littlemore)

No chance for me to start again

Break my heart again

No more reason why I'm here

There's a flood in my room I'm distraught

There's extra news and that's for sure

Bring back my chance to survive

Fall of man are bullshit and lies

Hope shatters my whole damn life

Even though I'm not alone tonight (Tonight - Tonight - Tonight)

My saviour breaks through clouds drain down on you (I'm left? I'm left? I'm left?)

With you girl come on give in to what I've done (I'm left? I'm left? I'm left?)

Turn the lights out on my life

Can't you see I'm losing my mind?

You walk away again out of my sight

Cause I'll never have you as my wife

I just fall silent (I'm left? I'm left? I'm left?)

My saviour breaks through clouds drain down on you (I'm left? I'm left? I'm left?)

With you girl come on give in to what I've done (I'm left? I'm left? I'm left?)
