

Bad Check

Eve Ai

Feeling the bad check in my pocket
With a subconscious mind
Third class third row A32
There's my open seat on the aisle

Wrapped up in a shabby gothic dress
Never a good word out of that mouth
Do you dare to follow me this way
Relying on what's left

Come back to the good times
Give me the pain of the present
Seeing the world change is a surprise but it doesn't surprise me
The world is causing people to change

A star-shaped symbol on my shoulder
Proving there is still a little pain
Overwhelmed by feelings of love
The pressure is making my eyes spin

Come back to the good times
Give me the pain of the present
Seeing the world change is a surprise but it doesn't surprise me
The world is causing people to change

Come back to the good times
Give me the pain of the present
This world is a shock to my face
Let me take you away from harm

(Epic harmonica solo)

Warm and cold keep switching
(Eyelids opening like windows)
People keep doubting love
(Like a boat scene)

Love, love, love, love from the chest, from the front,
From the heart, from the depths
Love in the past, in between, in the hand

Hold on to love
Oh love, oh love, oh love,
Fol - low meeeee

Come back to the good times
Give me the pain of the present
Tell them the reason of my pain to their faces
Evil and good will be finally judged

Come back to the good times
Give me the pain of the present
It used everyone's love to be on the left
A single night can change your entire life

Feeling the bad check in my pocket
With a subconscious mind
Third class third row A32
There's my open seat on the aisle
