

Tiny Planes on Canvas

Circulatory System

Well I know they can see a world that no one else can
I know they can see a world that no one else can Laying down planes, it's a way of life
Selecting fashions, it's a science you've known
Layer by layer, they make the world look fly Well I know they can see a world that no one else can
I know they can see a world that no one else can Laying down planes, it's a way of life
Selecting fashions, it's a science you've known
Layer by layer, they make the world look fly
No one else can
