Visual Delusion

Decapitated

Bastard lizard, lick my wounds!
Lucid dream our world turns to chaos.
Demonic shadows floating in blood waiting for me to fall asleep.
Inside my head an outstanding pain!
Millions of voices screaming for help.
Their venom poured all over me, an essence so powerful it destroys.My visions flounder, deep in the whirl of blood storm, see, feel and smell, plastic jesus nailed to the cross(x2)
Doom, nihility, holocaust comes, the cataclysm I have feared, comes.
Doom, nihility, holocaust comes.(Break) (Waclaw Kieltyka)My visions flounder, deep in the whirl of blood storm, see, feel, and smell plastic jesus, nailed to the cross(x2)
Doom, nihility, holocaust comes, the cataclysm I have feared, comes
Doom, nihility, holocaust comes.(Doom, nihility, holocaust comes, the cataclysm I have feared comes now)Cutting my veins, infecting my brain.
Burn my throat, burn my eyes.
Throbbing pain, throbbing brain.
Heavy lids, heavy thoughts...Doom, nihlity, holocaust comes, the cataclysm I have feared comes.
