

Deliverance (Without A Paddle Soundtrack)

Bubba Sparxxx

[Chorus]

I've been travelin for some time { *echoes* }
With my fishin pole and my bottle of shine { *echoes* }
On these long dark dusty roads { *echoes* }
Lookin there's nowhere to go
I guess I gotta hide away, far away
Cause I gotta find a way, to find my way
I gotta hide away, far away
Cause I gotta find a way, to find my way

Ay-ay-ay ay-ay-ay aaay[Verse 1: Bubba Sparxxx]

I left out from mama's with my thumb in the wind
The leaves on the ground, winter's comin again
Solid on the surface as I crumble within
But legends are made out of vulnerable men
So on the brink of death I still manage livin life

Cause so rarely in this world are these chances given twice

I indeed sold my soul, without glancing at the price
No instructions when I was handed this device
But with what I did get, I was more than generous
Put others over self on several instances

But I'm back on my feet without a hint of bitterness

And one way or another I shall have deliverance

So I say[Chorus][Verse 2: Bubba Sparxxx]

Can you recall a time people loved you unconditionally?

Toast in the new south, this one is for history

Then I slipped fell and caused the number's injury

Called the same people and it's yo you just missed them be

This the formula, dammit Bubba you had it

Why'd you have to keep it Polo and New Balance?

Then they start to question whether you a true talent

Or just a redneck substance abuse addict

So then you hide away just to try to find your way

And now they back to callin you 200 times a day

I want all y'all to know, good or bad I'll remember it

And 10 million sold in the name of my deliverance[Chorus][Verse 3: Bubba Sparxxx]

Nothing could atone for the pain you've endured

The blood you shed is still stainin your velour

You took your wealth and knowledge and gave it to the poor

Only to discover that your savior's manure

Accepted me as kin, put before your younger brother
They put a lot on us hardly knowin one another
I honestly can say that over time I've come to love you
Now we are brothers and together no one can touch us
It hauls me with regret I never met your baby girl
She's an angel on your shoulder helpin us to save the world
This musical marriage is no coincidence
On my mama Timmy baby we shall have deliverance
So we say[Chorus]
