i just wanna lay you down
let me take you from behind

i won't cum until it's tim

but if i cannot sleep with you
maybe i could have a taste
put your niney on my tounge
and your booty on my face

ow, i came to make you shake it
till you break it
caress your boddy untill you're naked
bed you over, grab your shoulder

slip my peter inside your folder
make a sweat-a, get you wet-a
pump it faster to make it better
dim the lights then lock the room
'cos now it's time for me to hit that boom
