

# If You Need A Fool

[Steve Earle](#)

Darlin', I could tell we're through that leavin' look's all over you  
I'll be waitin' here no matter what you do, call me if you need a fool  
Go and find another guy and if he don't believe your lies  
You know, there's someone who'll swear every word is true  
Call me if you need a fool They're just not makin' fools the way that they used to  
They don't come back for more the way I always do  
So if you ever change your mind, I'm not very hard to find  
You can find me in the phone book under Blue  
Call me if you need a fool They're just not makin' fools the way that they used to  
They don't come back for more the way I always do  
So if you ever change your mind, I'm not very hard to find  
You can find me in the phone book under Blue  
Call me if you need a fool, call me if you need a fool
