Lonely Road

Submersed

Every time I fight these feelings
It just ends up leaving me
Feeling cold and heartless
Cold and heartlessI know I am what I am
I know I've seen a change in me
A change that's left behind me
I've left behind meI've been down this road
I've taken all I know
I know I trust in meAnd what I feel inside
Is all that keeps me alive
On this lonely roadEvery time I deal with heartache
Waiting for the pieces to break
Feeling cold and heartless
Cold and heartlessI know I can get through this
I know I'll find the strength in me
To be the last man standing
The last man standingYeahI've been down this road
I've taken all I know
I know I trust in meAnd what I feel inside
Is all that keeps me alive
On this lonely roadI can't take this anymore
Can't you see
How you've hurt me once again?I've been down this road
I've taken all I know
I know I trust in meAnd what I feel inside
Is all that keeps me alive
On this lonely road
