The Outback Club

Lee Kernaghan

Works a 12 hour day from sun up til sun down
He's doing what he can to make the wheels go round
In a shed down the track he knows how to bend his back
He's the soul of the earth he's got a heart of goldHe's a member of the out back club
He don't back down and he dont give up
He's living in the land he loves
Born and raised he's a member of the outback clubShe rides the boundry fences with the blokes
She's a match for any man alive when she works the mob
Before the job is done theres another just begun
A kinda woman any man'd be proud ofShe's a member of the out back club
She don't back down and she dont give up
She's living in the land she loves
Born and raised she's a member of the outback clubHo!Works the field maybe just to bringing out the crop
There out there working their fingers to the bone
Might be jerking the stock or maybe working the mob
They got one thing in common, the country heart and soulTheir members of the out back club
They don't back down and they dont give up
Their all living in the land they love
Born and raised their members of the outback clubWe're all members of the out back club
We don't back down and we dont give up
We're all living in the land we love
Born and raised we're all members of the outback club
We're all members of the out back club
We don't back down and we dont give up
We're all living in the land we love
Born and raised we're all members of the outback club
Yeah we're born and raised we're all members of the outback club
