

The Dream

Culture Club

Like Alice in Wonderland
The dream takes you by the hand
Inside emotions that you might not feel
If by some notion the dream was not real
The dream, the dream, the dream
Watching the colors as they run
Figures you mold like the sun
Lovers can dream, devils can dream
You may be nowhere until you have seen
The dream, the dream, the dream whoa
Oh what have I done?
Close my eyes and I dream of some world
It could be magic, it could be tragic
Hee, dream
The dream, the dream, the dream whoa
