

All Over Again

B5

All over and over
Same little stuff
Why you gon' give me back my chain?
And you ain't even gon' give me the chance to explain
It's so typical we been here before
Ain't nuthin' changed
Why you gon' give me back my chain?
We just been through this, babe
It's just like Groundhog Day
Like yesterday and the day before
And the day before that
(Girl I bet I know what you 'bout to say)
You gon' say that I'm a big liar
(You 'bout to say)
You gon' say you gettin' sick and tired
(And I'm gonna say)
Ooh, you're trippin', girl, I'm outta here
But this is how we play, baby, it's okay
Girl, I wanna do it all over again
Come on let's do it like we always do
Break up and make up and break up
And then we're makin' up, here we go again
Oh girl, can we argue all over, get jealous all over?
'Coz I like gettin' back with you
Baby, ooh, let's do it over and over
All over and over again
You always wear that dress I like
On the very same day that we just had a fight
That's so typical, we been here before
Ain't nuthin' changed
All your girls stay in our biz
It's like they know before we, when even call it quits
When you throw your fits I get over it
I can't even get mad
(Girl I bet I know what you 'bout to say)
You gon' say that I'm a big liar
(You 'bout to say)
You gon' say you gettin' sick and tired
(And I'm gonna say)

Ooh, you're trippin', girl, I'm outta here
But this is how we play, baby, it's okay
Girl, I wanna do it all over again
Come on let's do it like we always do
Break up and make up and break up
And then we're makin' up, here we go again
Oh girl, can we argue all over, get jealous all over?
'Coz I like gettin' back with you
Baby, ooh, let's do it over and over
All over and over again
You know I ain't gon' leave, we mean too much to me
Even though we go through these changes on the regular, girl
If it was any other girl, I'll be gone like yesterday
[Incomprehensible] you I'm gonna feel
How come everyday you're lookin' to fuss
Got a young man wantin' to cuss
I know you know that I'm feelin' real serious
This love is real serious, serious
You be rockin' the flow
Then you come back for more
Back, back, forth, forth and back
I guess that's how we roll
Girl, I wanna do it all over again
Come on let's do it like we always do
We always make up and break up
And then we're makin' up, here we go again
Oh girl, can we argue all over, get jealous all over?
'Coz I like gettin' back with you
Baby, ooh, let's do it over and over
All over and over again
Girl, I wanna do it all over again
Come on let's do it like we always do
Break up and make up and break up
And then we're makin' up
