

Stay the Course

DJ Shadow, Posdnuos & Talib Kweli

From the first in hell, a child that I .
Some say cause we're in hell 'till we die
What if that death is no sight of Mohamed
No sight of visa, just... asking for your visa
We're back on the third rock, people trying got keep 'em head up,
You heard pop?
And bad time trespasses on your premises
Good times avoid you like a Nemesis
With or without we all gonna face that
Find a way to put fools on a place mat.
.cause trouble always imposing with this...
The majority will not see the few chosen
But will see our way before curtain closes
Chorus:
Be the one, be the man,
Be forever, the style
Never stop, never rest
Always know, never guess
Navigate to the North East side, the west
Just stay the course, you gotta stay the course!
Keep the eye on your pride
And your thorns ...
And your head in the sky...
And just stay the course!
We'll be talking back, a matter of fact
Maintain, just stay on track...
We'll be talking back, a matter of fact
Maintain, just stay on track...
...an army instead of shaking an...
Let it drop... for never taking the loss
From the start to the finish, my heart will never diminish
... when I sing it's such a bless...
Bring on different dimensions
You see that shit?
You say you're making a movie, but I've seen that flick
Kiss the . I really complete the photo
Electric fire, electric lighter like...
Living la vida loca, my life is sort of like a tornado that...
I don't mean to play it, what I mean to my philosophy,

Keep it real steady...

Chorus:

Be the one, be the man,

Be forever, the style

Never stop, never rest

Always know, never guess

Navigate to the North East side, the west

Just stay the course, you gotta stay the course!

Keep the eye on your pride

And your thorns ...

And your head in the sky...

And just stay the course!
