

# Lightspeed

## Sounds Under Radio

World's upheaval, freedom, stars scream out above it all  
You can't see it, breathe it in, you know I'm right behind you  
Swallow me whole  
Abandon all your reason  
Don't you know You're moving at lightspeed  
Conquer disbelieving  
This has been made up for you  
They can't save us, break us  
Bring it on we'll keep on breaking thought  
Without a trace  
Erasing guilty longing  
Don't you know You're moving at lightspeed  
You're moving at lightspeed  
You're moving at lightspeed  
You're moving at lightspeed  
I want you to see it  
I want you to feel it  
Breathe it in  
Keep on moving  
You're moving at lightspeed
