

# Two Girls

## The Gourds

The clouds they looked like cotton, they didn't even look like clouds  
I was underneath the weather, my friends looked like a crowd  
The swimming hole was full of rum, I tried to find out why  
All I learned was this my friends: you got to swim before you fly

Chorus:

I got two girls, one's in heaven one's below  
One I love with all my heart and one I do not know

Two lonesome dudes on an ugly horse came by not long ago  
They asked me where the action was I said I did not know  
As they disappeared into the brush, I heard the driver say  
He's a little slow between the ears, he's always been that way

Chorus:

I got two girls, one's in heaven one's below  
One I love with all my heart and one I do not know

Tall Jane just lays around and listens with her mouth  
She's had about a dozen husbands and the last one just pulled out  
And who will bring her dinner, in the weary years ahead  
All she gets from me is sympathy  
I've got no time to see she's fed

Chorus:

I got two girls, one's in heaven one's below  
One I love with all my heart and one I do not know

It's cold down the bayou, they say it's in your mind  
The moccasins are treading ice, and leaving strange designs  
The cajuns say the last time - it happened they weren't here  
Aww Beaumont's full of penguins  
And I'm a playing it by ear

Chorus:

I got two girls, one's in heaven one's below  
One I love with all my heart and one I do not know

repeat:

I got two girls, one's in heaven one's below

One I love with all my heart and one I do not know
