!You Tease

Chris Palser

been more than a week
since the last time you came around
I can't sleep
if I listen hard I found
I can hear
how much I miss your sound
wish you were
lying here
beside me
because right nowmiss the way you tease
way you move
miss the way you need
the way you use
if you have to leave
come back soon
and see how much I miss youbeen 2 weeks
I'm lying here wide awake
I can't sleep
I think I'm about to break
another week
how much more do I have to take
I swear I
better find you
I need you to dull this acheit's been 3 weeks
she seemed so pure
like no girl I met before
will she come back
can't be sure
no choice to make
but to wait for her
