Ogoni Star

Sarah Slean

There's an Ogoni Star in the sky shining shining bright
There are stars of your Brothers in the sky shining shining bright
And you can't say you're not afraid
You can't say you're not afraid
I stopped to listen would I burn with them would I waste the night?So dance you people dacing away your lonely tears
Dance for freedom dancing away you lonely tears
Do you see the stars in the sky shining shining bright?
See the stars and the Sisters in that sky shining shining brightO you can't say you're not afraid
O almost we're all afraid
If I stopped to listen wuld I burn with them?
Would I waste the night?So dance you people dancing away your lonely tears
Dance for freedom dancing away your lovely tears
Dance you people dancing away your lonely King
Dance for freedom dancing away you lonely King
