

# Like a Fan

Craig David

Feeling you more than a little  
Soon as I saw your face  
I was all up at you baby From the club to the limo  
Under sheets back at my place  
I remember that night was crazy No text goodbye, not there in the morning  
And now it's you now I'm missing Girls from Ocean Drive  
To sick girls back in London  
Never been in this position And now I'm feeling like a fan  
and I don't quite understand  
Know I've done this to girls before  
Glove's on the other hand  
Ain't feeling like a man  
And now I'm the one night stand Got me feeling like a fan fan fan fan fan  
And I don't quite understand stand stand stand stand  
Got me feeling like a fan fan fan fan fan  
And now I'm the one night stand Feel like I'm caught in the middle  
My mind says I should wait  
Intuition says act today (yeah uh) It's like I'm solving a riddle  
And I'm running out of patience  
But that don't change this situation that you got me yeah No text goodbye, not there in the morning  
And now it's you now I'm missing Girls from Ocean Drive  
To sick girls back in London  
Never been in this position And now I'm feeling like a fan  
and I don't quite understand  
Know I've done this to girls before  
Glove's on the other hand  
Ain't feeling like a man  
And now I'm the one night stand Got me feeling like a fan fan fan fan fan  
And I don't quite understand stand stand stand stand  
Got me feeling like a fan fan fan fan fan  
And now I'm the one night stand Got me feeling like a... Now I'm feeling like a fan  
and I don't quite understand  
Know I've done this to girls before  
Glove's on the other hand  
Ain't feeling like a man  
And now I'm the one night stand Ohhhh I'm like a one night stand yeah  
Hey, you would treat me like a one night stand girl  
One night stand  
Feels like a one night stand

Said it feels like a one night stand
