

# That's All We Are

## One Missed May

We are not rushing  
We're keeping silent when we want to shout  
And shouting when we're not  
We keep secrets of our dreams  
But if they match,  
Would not you spare your lost time?  
But if they will not?  
That's all we are. Chorus:  
Imagine that  
All these days and minutes'll come to an end  
So, please, do it now  
Please, do it now  
For all our hopes  
For all the dreams and things we will and can  
Please, do it now  
Please, do it now I know what's in your heart  
So what is going on?  
Tell me, why are you standing?  
Beggin you, go  
Wake up, the time's running out  
Crushing seconds which could be ours  
I know your eyes can't lie  
The thing your lips can do  
But I'm still seeing the person  
That I knew  
You told me that tomorrow you'll do  
All the things that you had to Your eyes can't lie  
Your eyes can't lie  
So why don't you even want to try Chorus:  
Imagine that  
All these days and minutes'll come to an end  
So, please, do it now  
Please, do it now  
For all our hopes  
For all the dreams and things we will and can  
Please, do it now  
Please, do it now Your eyes can't lie  
Your eyes can't lie  
Lie...
