

Poison Ivy

Buddy Guy

Now cats don't touch that gal that bleeds

You'll get wasted down to your knees

I don't like to brag

Don't like to say what I'll do

Cause I'm like poison ivy

I'll break out all over you Everyday when I shave in my housecoat

Two men have to hold me or I'll cut my throat

Cause I don't like to brag

Don't like to say what I'll do

Cause I'm like poison ivy

I'll break out all over you Well I found me blade one I could afford

Too short would be knife too long would be a sword

Well I don't like to brag

Don't like to say what I'll do

Cause I'm like poison ivy

I'll break out all over you Last night some cat got smart with my niece

And now he's under a sign that says rest in peace

Well I don't like to brag

Don't like to say what I'll do

Cause I'm like poison ivy

I'll break out all over you
