

The Undefeated Ego

The Leisure Society

Fight - you know you have to
You do it every day
A search for hidden meaning
In everything yo see
The undefeated ego
The ire behind the eyes
Have all but up and left you
It came as no surprise Avoid all disappointment
And never try again
The old familiar habits
Are trapped beneath the skin
Imperfect our alliance
Awry and overnight
The waves were raised
To wash us safe
Alive but out of sight
Alive but out of sight
