

Souljahz Don't Stop

Souljahz

Souljahz don't stop, Souljahz don't stop
Bring the real hip hop, bring the real hip hop
Souljahz don't quit, Souljahz don't quit
Bring the real live hits, bring the real live hits Yo, I really hate when people front like they ain't feelin' it
Yo, chef, turn it up so they know just who they dealin' with, what?
It's the S O U L J A H Z, that's Souljahz, stop sayin' it like y'all crazy
Not sweet tabs, souljabs, souljam or soy sauce Say it how ya like we're still representin' God
4 years straight 1st album out the gate
Downtown San Diego slangin' my own tape Y'all better get up or at least y'all better nod ya head
This beat so bangin' if you ain't movin' you must be dead
'Cause I'm gon' keep it real, the Souljahz ain't gon' never stop
I turn it up when I feel like preachin' to the cops Ya heard me right, ain't afraid to say the Lord's name
I came with Him so I'm leavin' with Him just the same
My name is Jek and it was nice meetin' all of y'all
And if ya lost hope I see ya at the altar call Souljahz don't stop, Souljahz don't stop
Bring the real hip hop, bring the real hip hop
Souljahz don't quit, Souljahz don't quit
Bring the real live hits, bring the real live hits Souljahz don't stop, Souljahz don't stop
Bring the real hip hop, bring the real hip hop
Souljahz don't quit, Souljahz don't quit
Bring the real live hits, bring the real live hits I write what I like so give me the mic
It's like I'm going undercover trying to save a million brothers
From the devil that will beat you, meet you and greet you
Half way trying to hold you up because he needs you If God be that stumblin' block, I be the rock
That hit you in the head before you trip off what he said
It's like that and it'll never change
And as long as I'm gon' be a Souljah you gon' hear His name Check it, Souljahz don't stop, we bring y'all hits
Check my high hat, my snare and kick
Reverse that so it sounds like this
Now put all them sounds back up in the mix We do what we want 'cause we freedom slaves
Lord, save us now while we still diggin' our graves
Or show us how to reach a real stage of repentance
Yes, repentance it's much needed Souljahz don't stop, Souljahz don't stop
Bring the real hip hop, bring the real hip hop
Souljahz don't quit, Souljahz don't quit
Bring the real live hits, bring the real live hits Souljahz don't stop, Souljahz don't stop
Bring the real hip hop, bring the real hip hop
Souljahz don't quit, Souljahz don't quit
Bring the real live hits, bring the real live hits Divine time to expose your mind to my rhyme while I

communicate

Elevate the holy word, make a demon disintegrate
I generate and designate holy rhymes that do penetrate
Your heart then start to search every part and investigate God incarnate, Jesus died so you could dominate
Death, when it comes to your last breath meet you eternal fate
Heaven or hell where you dwell demons will accumulate
Like dust and turn to rust if you continue to debate Movin' on from situations that irritate
M O V I N O N, check how I abbreviate
Let me demonstrate rhymes that penetrate this debate
Satan suffocates yo' fate, elevate than incriminate Dare to agitate or fight your head, he might decapitate
Activate the joke to provoke and Satan will choke your faith
That's the way he operates, yeah, he always comes in second
To John, the most high Jesus Christ, word, now check it Souljahz don't stop, Souljahz don't stop
Bring the real hip hop, bring the real hip hop
Souljahz don't quit, Souljahz don't quit
Bring the real live hits, bring the real live hits Souljahz don't stop, Souljahz don't stop
Bring the real hip hop, bring the real hip hop
Souljahz don't quit, Souljahz don't quit
Bring the real live hits, bring the real live hits I'm a Souljahz [Incomprehensible], I'm gonna told y'all
