

# Elect The Dead

[Serj Tankian](#)

Arms are raised above the sky  
But all I want is me  
You are there beside the night  
But all I want is me  
All I want is me Love we know comes from inside  
But all I want is me  
All I want is me Death we know come to us alive  
But all I want is you  
Death we know comes to all of us alive  
But all I want is you  
All I need is you, all I want
