

12 Step Program

Municipal Waste

Is like spinning out of control
In case we are ready
I heard before
They try to skip
Bringing this . a tour
So give it a rest they all try to warn me
What should I do .
If you havent noticed . ma backI dont want to . I just want to help
. this is where I am . no way today
A little we are done . as a fucking tour
A little we are done . as a fucking tour
A little we are done . as a fucking tour
