

This Time

[Jamie McDell](#)

Two years on the walls of going under
No time for the doors that are always closed
And then he sent a letter to his mother
And she closed her eyes and said he's coming home Hey 'ma I got something to tell you
And all the faces they don't really care
I told them I was different but they call me same This time I'm coming home forever
You'll never say goodbye again
And this time I'm coming home forever
You'll never be alone again Ten month on the streets of Argentina
Soft air but their houses are made of stone
And she thought like she knows he'll find another
'Till the day he left a message on her phone
Hey girl I got something to tell you
I'm really wishing you were here
I guess you call it living but it's just not the same This time I'm coming home forever
You'll never say goodbye again
And this time I'm coming home forever
You'll never be alone again Five days on the border of Nouméa
Their feet and their case are made of sand
I gave all my money to a friend I never saw again This time I'm coming home forever
You'll never say goodbye again
And this time I'm coming home forever
You'll never be alone again
This time I'm coming home forever
You'll never say goodbye again
And this time I'm coming home forever
You'll never be alone again You'll never be alone again
