

Glass Eye

Last Tuesday

(CHORUS):

Every day I see you there
Acting like you just don't care
Every night I see your eyes
Hiding behind your cheap disguise Tell me everything
Tell me anything
Tell me how you feel
Tell me what's real
Right, wrong, not the one
When it's said and done
Do you feel alright
Can you sleep tonight
In the light
Face the fight (CHORUS) All the things we hide
Held back by our pride
Have I said enough
Do I think too much
Alone in the crowd
And we're still so proud
Of who we think we are
Have we gone too far
