

# Stick Around

[AC/DC](#)

You've been smilin' lately baby  
You've been singin' in the bath  
You've been actin' like a lady  
Not a dirty photograph  
Then tonight you came home early  
Packed a bag or two  
It's been worryin' me honey  
Just what you're gonna do  
Stick around, yeah, stick around  
Stick around, babe, stick around  
When you came on like a hurricane  
About a month ago  
blowin' like a stiff breeze  
Always on the go  
All the good times that we had  
All stayed in the past  
All the good lays that I get  
Never seem to last  
Stick around, yeah, stick around  
Stick around, babe, stick around  
Come on baby sit on this  
What have I been doin' lately  
To make you wanna go  
I take you out dancin'  
Now we can go out to a show  
Spend the night romancin'  
Nights out on the town  
Listen to me baby  
You'll be glad you stuck around  
Stick around, yeah, stick around  
Stick around, babe, stick around
