

# Beautiful Little Fools

[Jorja Smith](#)

Beautiful little fools  
That's what us girls are destined for  
Beautiful little fools  
Born to be adored Where is the feminine race?  
Where are these so-called independent women?  
Who pick up their flaws  
And let the world in  
Where are these girls? Beautiful little fools  
That's what us girls are destined for  
Beautiful little fools  
Born to be adored  
Most of these girls pick up her brush  
They might not like art, but their face is a canvas  
Designing something that is not their reflection  
Becoming a beautiful little Hollywood perception Beautiful little fools  
That's what us girls are destined for  
Beautiful little fools  
Born to be adored Didn't your mother ever tell you love yourself?  
Well if your mother was Elda or Daisy, I guess not  
Why can't you be a beautiful little girl  
Instead of being a beautiful little fool?  
I guess we're all just beautiful little girls  
Playing a game of being fooled, yeah Beautiful little fools  
That's what us girls are destined for  
Beautiful little fools  
Born to be adored  
Beautiful little fools, no  
We're all just born to be adored  
We're beautiful little fools  
We're all just born to be adored
