

Do It Well

DVSN

You're the only one I can talk to
And I ain't gotta talk to you
I'll even shut up if you want to, want to, yeah
I spend my time watching you And you tell me just lay back
While you go to work
And you're working
Yeah, you're working
And I know you're 'bout your business
So go to work, yeah
I'm feeling fucked up, still love fucking
I ain't throwing money in the air for nothing I do it 'cause you
You do it well
So well, so well, so well
You, you do it well
Do it so well that you can bill me
For the only therapy I know, I know, I know, I know
Therapy I know, I know
And you're the only therapy I know You're the only one I can talk to
And I ain't gotta talk to you
Things I only tell you in the night time baby
While I'm sitting here watching you And you tell me just lay back
While you go to work
And you're working
Yeah, you're working
And I know you're 'bout your business
So go to work, yeah
I'm feeling fucked up, still love fucking
I ain't throwing money in the air for nothing I do it 'cause you
You do it well
So well, so well, so well
You, you do it well
Do it so well that you can bill me
For the only therapy I know, I know, I know, I know
Therapy I know, I know
And you're the only therapy I know You are my therapy
You are my therapy
