

Teddy Bear

[Bette Stuy](#)

I got this aching desire in my heart
Like a blazing fire in the pitch, pitch dark
I remember how we used to be
I remember how we used to feel
Now I need some love to steal

From my Teddybear
May be cute, but he's not you
My Teddybear
Only if my man's love could be as true
My Teddybear
Is all I got when my man ain't home
I'm so tired of being all alone

Two weeks since I had you here to hold me
I don't need no one else to know me
Don't sleep at night without you by my side
Come back home and make everything alright
Sitting home here, drinking whiskey and beer
Come on home, baby, wipe away my tears

From my Teddybear
May be cute, but he's not you
My Teddybear
Only if my man's love could be as true
My Teddybear
Is all I got when my man ain't home
I'm so tired of being all alone
