

I'll Bite Your Face Off

Alice Cooper

She was a dirty dream, cool and clean
With seduction dancing in her eyes
She turned around, looked me up and down
She took me by surprise I tried to run, tried to hide
But my feet were made of clay
Looked in her eyes, I was paralyzed
I just couldn't get away She licked her lips, they were bloody red
She had the heart of the living dead
She pushed me down on a burning bed
Thought I was in heaven, but instead
She turned her head and she softly said I'll bite your face off
I'll bite your face off
I'll bite your face off -- little man
I'll bite your face off -- you know that I can She put the whip into cream
She was a sinner's queen, oh a delicious angel face
She'd invite you in, c'mon and lick my skin
You'd sell your soul for another taste She took my heart, my resistance fled
I loved each lie that I was fed
She pushed me down on a burning bed
Thought I was in heaven, but instead
She turned her head and she softly said I'll bite your face off
I'll bite your face off
I'll bite your face off -- little man
I'll bite your face off -- you know that I can She pushed me down on a burning bed
Thought I was in heaven, but instead
She turned her head and she softly said I'll bite your face off
I'll bite your face off
I'll bite your face off -- little man
I'll bite your face off -- you know that I can
I'll bite your face off
I'll bite your face off
I'll bite your face off
I'll bite your face off
