

# Year Zero

## Kele

I came to you full of truth  
An open heart, just for you  
I came to you, full of truth  
do anything you'd ask me to It's not enough  
no, no  
no, no  
It's not enough See, I don't wanna know  
All the boys you've ever known  
Or the hearts you might have broken  
It's zero, it's zero  
This is our year zero  
See, I don't wanna know  
All the boys you've ever known  
Or the hearts you might have broken  
It's zero, it's zero,  
This is our year zero  
Usually  
Love lets me down  
No one like you sticks around  
So wrap your arms around my waist  
And put your kisses babe  
Upon my face It's not enough  
no, no  
no, no  
It's not enough See, I don't wanna know  
All the boys you've ever known  
Or the hearts you might have broken  
It's zero, it's zero  
This is our year zero  
See, I don't wanna know  
All the boys you've ever known  
Or the hearts you might have broken  
It's zero, it's zero,  
This is our year zero  
See, I don't wanna know  
All the boys you've ever known  
Or the hearts you might have broken  
It's zero, it's zero  
This is our year zero

See, I don't wanna know  
All the boys you've ever known  
Or the hearts you might have broken  
It's zero, it's zero,  
This is our year zero
